To Whom It May Concern:

I would like to commend Themecrafters on another great prom! This was our second year using Themecrafters and both years have been the easiest and prettiest proms we have had. For years we decorated using kits and other items and never had the results we quite wanted. Just putting the decorations together was time-consuming and frustrating. On top of that, we had tremendous waste with the amount of cardboard to be disposed of.

With Themecrafters, set-up is simple, clean, and time-efficient. The team is professional and knowledgeable of what it takes to pull off a successful prom. The students enjoyed decorating and had a great sense of pride when the decorations were finished. Cleaning is simple and it is nice to not throw away cardboard decorations that had huge amounts of money spent on them.

The best compliment I have ever had was when a student looked at the decorations and said, "Oh my gosh! It looks like a prom in a movie!" To know that the students like the decorations and appreciate the work means so much.

Thank you, Themecrafters, for providing us with a way to spend our money wisely and produce a prom that is truly unforgettable for the students.

Sincerely,

Tracie Robitaille
